NURSE/PHYSICIAN

All calls to our nurses are routed through the Triage Nurse. Please leave a detailed message with your full name (including the spelling of your last name), date of birth, reason for calling, and a number where you can be reached. Every effort will be made to return your call as soon as possible, and you can expect your call to be returned the same day. If it is important that your call be returned within a certain amount of time (example; need a call back within 2 hours), you must make that clear in your message. **If your situation requires immediate attention, do not call the office; dial 911.**

PRESCRIPTION REFILLS

Refills of prescription drugs can only be filled during regular business hours. This restriction is for your protection. We must be able to have access to your most up-to-date and complete medical records to ensure you receive appropriate medications and approvals from your physician.

IN-OFFICE DISPENSARY

We understand that undergoing treatment for your condition can be unsettling and time consuming. In order to provide excellent service and convenience for our patients, we can dispense certain medications to you in our offices. We can also confirm your prescription benefits coverage and investigate alternative co-payment assistance resources (e.g., patient assistance programs, manufacturer-funded assistance, etc.) to better ensure you receive your medication as quickly and cost-effectively as possible. Please let us know if you have any questions about filling your prescription in our office.

SCHEDULING AND APPOINTMENTS

If you are calling to schedule an appointment, please leave a detailed message including the following information on voice mail: full name (including the spelling the last name), date of birth for the patient, and the telephone number where you can be reached. We will always accommodate emergencies when they occur. For this reason, it is very important to always schedule your visits so that time can be set aside for your care. Please call the office and speak with the nurse before coming in for an unscheduled visit. If you choose to come into the office without first speaking to a nurse, your situation will be assessed to determine if your needs can be taken care of the next day. If you cannot keep a scheduled appointment, please let us know 24 hours in advance so that we can release that time for another patient. Please pay close attention to your appointment time and help us by arriving at the time designated on your appointment card.

Lab draws are scheduled 15 minutes prior to a physician or chemotherapy appointment. Please understand that in order to be respectful of those patients who do arrive at their scheduled times, late arrivals will be worked into the schedule if and as it allows. Additionally, those who arrive more than 30 minutes before their appointment will be asked to wait.

INSURANCE AND BILLING

You will be asked to provide us with your insurance coverage information at your first visit and every 6 months thereafter. A day or two prior to your appointment with our office, a registration clerk will contact you to obtain and verify your insurance information. It is a requirement of your health insurance that co-payments be collected at each visit. We participate with most major insurance carriers. As a courtesy, claims will be filed for you. In order to ensure reimbursement, your insurance information must be kept current. Please remember that your insurance policy is a contract between you and your insurance company, and we are not a party to the contract. For your convenience, we accept Visa, MasterCard, Discover, and American Express. You will be introduced to one of our Patient Benefit Representatives who will assist you with your financial health. You will receive monthly statements showing you an itemization of charges and payments made by you or your insurance companies. If you have questions regarding your billing, do not hesitate to contact our billing office at (757) 213-5700.

FEES FOR MEDICAL PAPERWORK

A fee will be charged for all medical paperwork such as, but not limited to, disability forms, FMLA, etc. Please notify the front desk if medical paperwork needs to be completed.

Child Visitation Policy for Virginia Oncology Associates

- The purpose of this policy is to create a safe environment for patients, visitors and staff.
- This policy falls in line with current visitation guidelines for local Sentara and Bon Secours facilities and leading national cancer centers at VCU, Duke, MD Anderson, Johns Hopkins and Memorial Sloan Kettering .

Children under the age of 16 are not allowed in the VOA clinical areas. They are allowed to wait in the lobby with adult supervision (other than the patient).

RISK TO PATIENTS:

- Multiple routine childhood vaccinations are “live” vaccines. MMR for measles, mumps and rubella, Varicella vaccine for chickenpox and flu-mist for influenza are all live attenuated vaccines. A cancer patient whose immune system is weakened may have serious complications from routine infections. Any visitor who is recovering from illness or has been exposed to someone who is ill, should not come into the office. Young children may not be sophisticated enough to recognize early symptoms and communicate them appropriately.

RISK TO CHILDREN:

- Clinical environments place younger children at increased risk of exposure to health hazards. Children are still mastering safe behavior within their community. Young children may accidentally expose themselves to biologic and chemotherapy hazards when they touch a contaminated surface and then touch their mouth, nose or eyes .

THINGS TO CONSIDER:

- Critical lab results, reactions to medications or new clinical findings all might lead a physician to recommend that a patient be hospitalized on an emergent basis .
- A child might witness emergency care being delivered to another patient which the child might find upsetting .

Virginia Oncology Associates is committed to providing patients the highest quality care. By providing a protected clinical time, we afford patients the opportunity to be a full participant in their care.
